

# Reference Guide

## Create a Walk Personal Page in Minutes!

A customized Personal Page is a surefire way to raise more funds and help create a world without T1D! This guide will help you quickly create a page that shares your unique reason for walking. Get started now!

1. Visit [walk.jdrf.org](http://walk.jdrf.org), log in to your **Participant Center** and select the appropriate event (if you are registered for more than one).
2. Go to the **Your Info** tab and select **Personal Page** from the dropdown list.

3. Why not share your own JDRF story by editing the standard page text? We have great [tips for telling your story!](#) And remember, if you edited your page in the past and registered using the same email address, your page from last year is automatically reused. Be sure to update statistics and refresh your story about why you walk!

**Note:** To ensure your text formats properly, we recommend that you write your content directly in the Personal Page editor. If you prefer to write your message elsewhere we recommend using a Notepad file instead of Microsoft Word. Copying and pasting text from Word is the most common reason for formatting issues and unusual characters.

4. We'd love to see your reason for walking! Customize the page with personal pictures and/or a video. Keep in mind that you can make the story more impactful by adding two pictures and a video. C'mon, a picture is worth 1,000 words!

**Note:** Photos must be in .JPG or .GIF format and less than 4 MB in size. Many high-resolution digital camera photos are larger than 4 MB and may need to be compressed before you can use them on your

Personal Page. There are many free programs that will allow you to compress your images. Here are a couple of examples:

- ImageOptimizer ([www.imageoptimizer.net](http://www.imageoptimizer.net))
- Microsoft Office Picture Manager ([More Info](#))

5. Select **Preview** (near the bottom of the page). A separate browser window will open and display your **Personal Page**. If the preview does not appear, be sure your browser allows pop-ups.
6. Your **Personal Page** automatically displays two status indicators. You can alter or hide them by using the checkboxes in the **Components** area.
  - **Participant Status Thermometer**: Shows the amount of money raised toward your goal.
  - **Fundraising Honor Roll**: Shows the largest gifts including the names and amounts of the top 35 donors (except for those donors who have specified they prefer to opt out of the display). You can opt to show the names with or without the gifts amounts.
7. Personalize your link and create a friendly URL that you can easily remember and share with friends.
8. Be sure to select **Save** so you can keep your new page. Then **View Personal Page** and get ready to email everyone you know and watch the dollars roll in!

## Personal Page [View Personal Page](#)

Who is your #1? Remember your inspiration when you create your page. The more personal you make your fundraising page, the better! People will donate because YOU are asking them to. Be sure to update your personal fundraising webpage with pictures and/or video and your story so potential supporters know why you are supporting JDRF. Share your passion with your friends, family, co-workers, and other potential donors. It's a critical part of your fundraising success.

Title

Join me in the fight to create a world without type 1 diabetes!

Body

ABC Font family Font size

**B** *I* U

Welcome to my personal JDRF Walk fundraising page!

I'll be taking part in this year's Walk to raise funds for the millions of people living with and affected by type 1 diabetes (T1D). The money I raise will help JDRF fund critical research to progressively remove the impact of T1D from people's lives until no one has to fear developing the disease.

Type 1 diabetes is a life-threatening autoimmune disease in which a person's pancreas stops producing insulin - a hormone essential to the ability to get energy from food. It strikes both children and adults suddenly and changes life as they know it forever. It cannot be prevented and there is no cure.

JDRF is the largest nongovernmental funder of T1D research and the only global organization with a strategic research plan to fight T1D. This science is complex and costly, and every dollar JDRF is able to direct toward research comes from donors like you.

Please support me and donate to my Walk fundraising campaign. Your gift will make a difference for millions of people.
